ABOUT MAGNAFLOW

MagnaFlow Exhaust Products got its start as a natural extension of Car Sound Exhaust Systems, Inc., parent company, which specializes in superior catalytic converter technology. Car Sound Exhaust Systems, Inc., has spent 30 years earning a reputation as a market leader around the world.

Today, we at MagnaFlow Exhaust Products are extremely proud of this and stake our 30 years of experience and reputation on each and every one of our products. Each new product we develop is personally evaluated and tested by our team of designers and engineers, then field tested to ensure that these products meet our stringent quality and performance standards.

HEADQUARTERS

The MagnaFlow headquarters is a 50,000-square-foot office and special projects manufacturing facility. Home to Management, Sales, Marketing and state-of-the-art computer technology that links the various MagnaFlow production facilities.

RESEARCH & DEVELOPMENT

The 30,000-square-foot R&D Tech Center is home to the CAD Engineering Department, the Prototype & Fixturing Departments, two in-ground dynamometers, flow-bench testing, and sound testing.

MANUFACTURING & DISTRIBUTION

OCEANSIDE FACILITY

MagnaFlow's new 280,000 square-foot manufacturing and distribution facility is home to the latest robotics and automation technology. As the primary manufacturing facility, MagnaFlow's performance and emissions product lines take their initial form here. A sophisticated inventory and distribution system ensures timely delivery.

RANCHO SANTA MARGARITA FACILITY

MagnaFlow's secondary manufacturing center is 125,000 square-foot housing all operations required for the supplementary manufacturing of MagnaFlow mufflers, systems, tips and converters.

Compare MagnaFlow's Performance Exhaust components with any other manufacturer's and you will immediately see the difference in quality. MagnaFlow products are CAD designed and race proven under the world's most demanding real world applications. The Stainless Steel construction, use of Mandrel bent tubing and Straight-Through Design is why MagnaFlow confidently provides a Lifetime Warranty and it is how MagnaFlow delivers unparalleled Quality, Power, and Sound.

Body filled with high temperature acoustical suppression material for maximum sound absorption.

Heavy gauge stainless steel body, end caps and one piece core deliver long life protection.

Large diameter, perforated stainless steel core eliminates flow restrictions of louvered-style core.

AXLE-BACK EXHAUST SYSTEM

Exhaust system built to fit to the factory exhaust at our rear axle. These systems are 100% emissions compliant and designed to enhance power while providing similar siatics appeal .

CAT-BACK EXHAUST SYSTEM

Exhaust system built to fit-behind the factory catalytic converters. These systems are 100% emissions compliant and designed to optimize exhaust flow using mandrel bent tubing and straight through mufflers.

PERFORMANCE PIPES

Mandrel bent exhaust inlet pipes with or without converters designed for enhanced performance. Check with local lane for use of my off road products.

Stainless steel mesh provides durability under high temperature, with additional sound absorption and no blow-out.

All welded, lap jointed contacts avoid distortion and cracking at joints.

STREET/TOURING SERIES

Exhaust systems are designed for those seeking increased performance and better economy, balanced with interior and exterior noise levels. These systems are tested against SAE j1169 standards.

COMPETITION/SPORT SERIES

Exhaust systems are designed for those seeking maximum performance, reduced mass and an aggressive exhaust note that demands attention. These systems may not comply with all local or federal noise requirements.

FEATURES

- Lifetime Warranty
- Stainless Steel Construction
- Hassle Free, Bolt-On Installation
- High Flow Straight Through Design
- Turn-Down Before the Axle Configuration

FEATURES

- Dyno Proven
- Anti-corrosive aluminized body
- Straight-through performance design
- Deep exhaust note that demands attention
- Sound of horsepower from idle to full throttle
- Non-fiberglass acoustic packing for longevity & superior sound dampening

FOR AMERICAN MUSCLE, TRUCK, SUV & MORE

IMPORT • DOMESTIC

MagnaFlow's passenger car, sports car and compact performance applications have two series which identify basic performance and sound characteristics:

Street/Touring Series

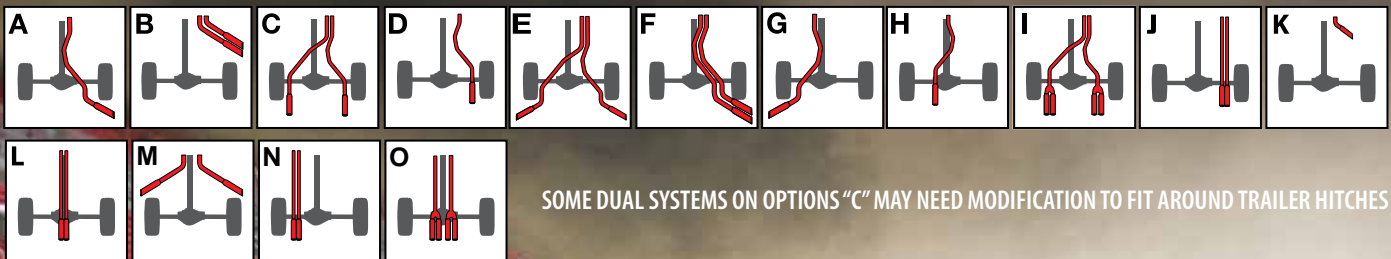

Exhaust systems are designed for those seeking increased performance and better economy, balanced with interior and exterior noise levels. These systems are tested against SAE j1169 standards.

Competition/Sport Series

Exhaust systems are designed for those seeking maximum performance, reduced mass and an aggressive exhaust note that demands attention. These systems may not comply with all local or federal noise requirements.

“Every Artist has their specialty, mine just happens to be Hot Rods. I don’t consider it to be a Foose Design until the engine sounds as great as that car looks. Every musical instruments has its own sound... Hot Rods are no different. MagnaFlow Performance Exhaust gives me that perfect sound.” – **Chip Foose, Legendary Car Builder**

Exit Configurations

MagnaFlow's truck applications offer the customer systems with multiple options to meet just about every exit configuration imaginable:

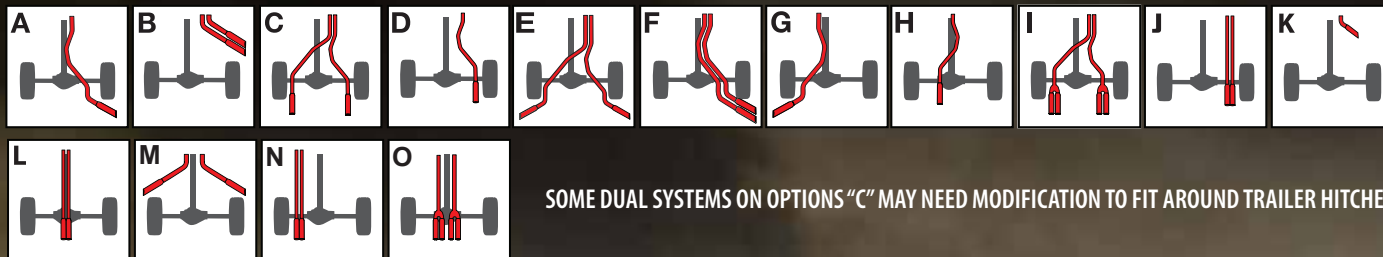

Single Side Exit — Near stock exit point with the most sound control. Best suited to towing hauling and cruising.

Dual Split Rear Exit — Adjustable exit points under the bumper suited for most OEM hitches with an aggressive exhaust note and additional flow capacity for a few more horsepower.

Dual Side Exit Before Rear Tire — The most aggressive exhaust note and reduced weight for the customer seeking the highest performance and a truly aggressive tone.

Dual Side Exit Behind Rear Tire — Similar performance and sound character as the Dual Split Rear Exit with a unique same side configuration without issues from OEM or aftermarket hitches or roll pans.

EXIT STYLE CONFIGURATIONS:

JV • DIESEL

D.P.F. = Diesel Particulate Filter (07-12)

MAGNAFLOW PERFORMANCE Diesel systems are our premium line which includes mandrel-bent stainless steel tubing, a mirror finish 100% stainless steel muffler, an optional muffler delete pipe, band clamps, and polished MagnaFlow single-wall inter-cooled tip(s).

MAGNAFLOW PERFORMANCE Diesel systems are our premium line which includes mandrel-bent stainless steel tubing, a satin finish 100% stainless steel muffler, an optional muffler delete pipe, band clamps, and polished MagnaFlow single-wall inter-cooled tip(s).

MAGNAFLOW PRO PERFORMANCE is our entry-level performance line which includes mandrel-bent stainless steel tubing, a muffler delete pipe, saddle clamps, and polished MagnaFlow single-wall inter-cooled tip(s).

O.R.P.S. = Off Road Pro Series

MAGNAFLOW OFF ROAD PRO-SERIES Turn down before the axle design provides an aggressive exhaust note and allows for use on vehicles with highly modified suspension systems. Lifted, lowered, air bagged or long travel.

Non D.P.F. Equipped (94-07)

MAGNAFLOW PERFORMANCE Diesel systems are our premium line featuring a POLISHED 100% stainless steel muffler and mandrel-bent stainless steel tubing with a DOUBLE WALL tip(s).

MAGNAFLOW XL PERFORMANCE is our mid-level performance Diesel system featuring a 100% stainless steel muffler and mandrel-bent stainless steel tubing with a single wall tip(s).

MAGNAFLOW PRO PERFORMANCE is our entry-level performance Diesel system featuring a 100% stainless steel muffler and mandrel-bent stainless steel tubing. Optional 5" diesel tips are sold separately.

MAGNAFLOW DIRECT-FIT MUFFLER KIT. If you want to get some of the sound, looks and performance of our full cat-back systems, but are working on a budget, consider MagnaFlow's all new 100% stainless steel direct-fit muffler kit.

“MagnaFlow’s product is the only part on my truck that I’ve never broken. I like running MagnaFlow on my truck cause it’s got great sound, awesome performance and is tough as nails. That MagnaFlow hangs in there for the ride and it’s there for the next one. I run it on the Grave Digger and I also run it on my personal truck.” – **Dennis Anderson, Driver of Grave Digger Monster Truck**

"No matter if we are looking for that extra horsepower, the rumble we all live for, or the clean look that sets us apart, MagnaFlow is the only choice for TEAM CANIDAE. We are so impressed with the quality, workmanship and performance that we even run an entire MagnaFlow exhaust system behind our 800 HP Trophy Truck. If it lasts for us, it will last for you." -**Scott Whipple, Team CANIDAE**

MAGNAFLOW

Exhaust
PRODUCTS

QUALITY. POWER. SOUND.

MagnaFlow's Race Series mufflers are designed for the maximum performance of full race or street/strip vehicles. With many racing venues imposing strict DB level requirements for racers, MagnaFlow's straight through design Race Series mufflers reduce DB levels on high power vehicles without any performance loss. The Race Series features stainless steel construction for maximum longevity, durability and power. Visit us online to hear your system, check out dyno results, up to date applications and more.

Race /Specialty Mufflers

Now that racetracks are enforcing stricter decibel level restrictions, MagnaFlow is giving the consumer another option when it comes to choosing a muffler to stay within those guidelines.

MagnaFlow's specialty mufflers feature stainless steel bodies, end caps and perforated cores. With our straight through, Wide Open Performance design, our mufflers give you that true MagnaFlow performance while meeting all track decibel level requirements.

GlassPack Mufflers

MagnaFlow GlassPack Mufflers are designed for increased performance with an aluminized steel body, perforated core, straight through design and precision robotic CNC-welding. Our non-fiberglass acoustic packing material delivers the classic GlassPack sound that you are looking for without sound degradation or blowout. MagnaFlow GlassPack Mufflers are proudly made in the USA.

To determine which muffler works for you, consider the following:

- Inlet/Outlet diameter
- Overall size of muffler being replaced
- Amount of space available for muffler
- Sound – small muffler means big sound

MAGNAFLOW

Exhaust
PRODUCTS

QUALITY. POWER. SOUND.

At MagnaFlow Exhaust Products, we pride ourselves on the durability and quality of our products. Whether it's a cat-back system for your American Muscle Car or the parts you need to fabricate a custom exhaust, MagnaFlow has what you're looking for. With nearly 30 years of producing high quality products, our exhaust systems not only perform, but they also sound great from the track to your daily commute. Visit us online to see our complete product line plus hear your American Muscle exhaust sound clips.

★ A M E R I C A N ★
MUSCLE™

- Lifetime Warranty
- 100% Stainless Steel
- 2.5" and 3" Dual Kits
- Systems available for most A-, E-, F- and X-Body classics
- Cat-Back systems available for most new American Muscle, including Challenger, Charger, Corvette, Magnum and Mustang
- Proudly made in the USA

True Clamp-On Tips for Trucks & SUV's

These universal tips feature the beefiest clamp in the business. The clamp is welded to the tip, uses high strength weather-proof hardware, and has a full 4" inch range adjustment. Best of all, 3 part numbers cover more than 98% of all truck and SUV applications. Additional applications are provided for smaller vehicles, including some muscle car and tuner applications.

Custom Builder Kits

Whether you are a professional builder or you are working on your first hot rod or custom car project in a home garage, the Custom Builder Kit includes the MagnaFlow parts you need to get started on a one-off exhaust system. This kit includes all of the basic components needed for your system, including universal hangers, flanges, straight pipes, and mandrel-bent J-, U-, and L-bends.

The MagnaFlow Custom Builder Kits are available in 2.25", 2.5", and 3" diameters and are backed by MagnaFlow's Lifetime Warranty. Be sure to include a set of MagnaFlow performance mufflers to put the finishing touch on your one-of-a-kind exhaust system.

IN/OUT	PART #
2.25" Dual	10701
2.5" Dual	10702
3" Dual	10703

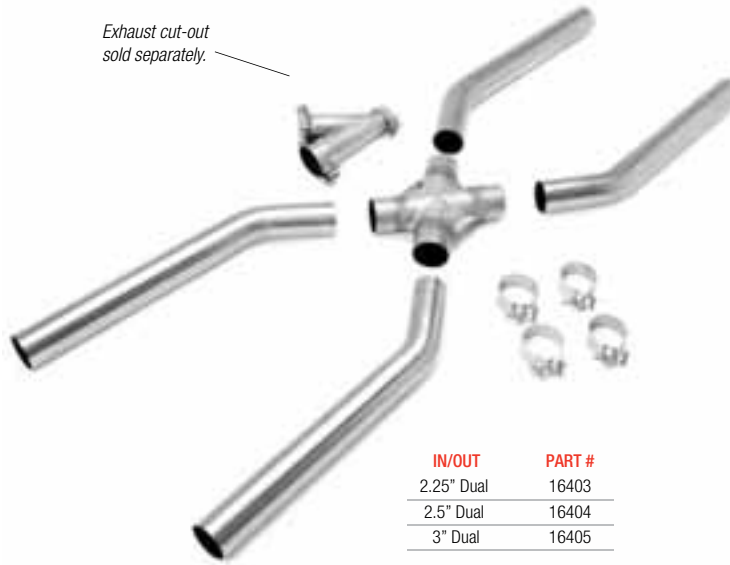

X-Pipe Kits

If you're in the market for a custom exhaust, MagnaFlow's stainless steel X-Pipe kits are a great starting point. Our X-Pipe kits are available in 2.25" dual, 2.5" dual and 3" dual diameters and come complete with an X-Pipe, four pipes and four exhaust band clamps.

Each X-Pipe features a gentler radius, which allows for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks, resulting in a significant increase in power and torque.

*Exhaust cut-out
 sold separately.*

IN/OUT	PART #
2.25" Dual	16403
2.5" Dual	16404
3" Dual	16405

QUALITY PRODUCTS THAT YOU CAN DEPEND ON

As one of the largest catalytic converter manufacturers in the United States, MagnaFlow has a complete line of universal and direct-fit converters, including specialty designs such as integrated manifold converters for both 49-State and California applications. To complement their full line of OBDI- and OBDII-compliant catalytic converters, MagnaFlow also prides itself on a complete line of stainless steel performance exhaust systems backed by a lifetime warranty. Thirty years of experience and a reputation for manufacturing to the highest quality and performance standards make MagnaFlow the exhaust industry leader.

PRODUCTS

QUALITY. POWER. SOUND.

MagnaFlow's Race Series mufflers are designed for the maximum performance of full race or street/strip vehicles. With many racing venues imposing strict DB level requirements for racers, MagnaFlow's straight through design Race Series mufflers reduce DB levels on high power vehicles without any performance loss. The Race Series features stainless steel construction for maximum longevity, durability and power. Visit us online to hear your system, check out dyno results, up to date applications and more.
